

### **Premium Hand Wash**

Hand washed using soft wool mitts and a heated pressure washer. Wheels, white walls, and wheel lips cleaned thoroughly with special attention spent on chrome exhaust tips, lettering, and emblems. Finished with our special spray on / rinse off Jet Wax, dried with our non-scratch shammys towels, and treated with our long lasting tire shine. Does not remove sap, tar, road paint, or all bug guts.

*Allotted time: 35/40/45 minutes.*

### **Vacuum/ Window**

This is a quick, maintenance level service. Windows are cleaned inside and out including your window tops, rear view mirror, sunroof, and vanities using tint safe cleaner. All cracks and crevices of the front center console, doors, seats and cup holders are quickly air gunned to remove most dust and loose debris. Rubber floor mats sprayed clean using our heated pressure washer. Cloth seats, floors, mats, and trunk vacuumed.

*Allotted time: 35/40/45 minutes*

Please note more than a nominal amount of dog hair or pines needles will result in a \$10 dollar increase of the base price.

### **Hand Wax**

We hand apply and remove high quality carnauba wax on all painted surfaces to help protect and preserve your vehicles finish. Does not remove scratches and swirls.

*Allotted time: 30/35/40*

### **Interior Detail**

All Cloth Seats and carpets shampooed. Plastic and leather surfaces scrubbed clean. Rubber and cloth floor mats pressure washed clean. Windows cleaned inside and out. Door jams cleaned with heated pressure washer. Interiors are dried using the vehicles heater system coupled with our high powered industrial fans. Vehicles with less than 1/8 tank of gas may be susceptible to a fueling charge of up to \$25. Dog Hair will increase the base cost by 20 dollars.

*Allotted time: 2.5/3/3.5 hours*

### **Exterior Stage - Buff and Polish**

Begins with our Hand Wash. Up to 30 min of clay bar removing sap, road tar, and bug guts. Machine polished to remove most scratches and bring out a high gloss finish. Additional polishing step for a finer finish removing deeper scratches and oxidation. Hand waxed. All exterior plastics below the window line are dressed using our plastic protectant. Chrome and glass cleaned.

*Allotted time: 3.5/4/4.5 hours*

### **Full Detail**

Complete Interior and Exterior Detail combined at a discounted rate.

*Allotted time: 6/7/8 hours*

### **Ozone Treatment**

A powerful method of odor elimination without the use of chemicals or masking deodorizers. Great for dog cars, smokers, or any pesky odor. We place our powerful ozone machine inside your vehicle and let it do its magic. It can leave a slight chlorine like smell that may persist for up to a day or two. This is normal. No chemicals or cleaners are used for this service.

This service works best with our complete interior detail as it usually allows us to remove the odor at its source. This service works great for most vehicles but we cannot guarantee complete odor removal.

### **Headlight Restoration**

Cleans, brightens, and protects headlights for better appearance and performance.

### **Disclaimer**

FinishLine will not be liable for damages that occur with normal described procedures. It is the responsibility of the customer to inform FinishLine of any recent body work, interior fabric or leather dyeing, or any other such repairs. Finished details are parked on an interior wall. This is an open air garage, meaning there may be a light amount of pollen, dust, and fog/mist present on finished details. Vehicles are detailed rain or shine. We generally perform services one calendar day before the customer's scheduled return date. We make every effort to complete every service requested, even same day returns. Stays of 48 hours or less do not always allow us enough time to complete a service, especially during holidays, school breaks, and three day weekends. When the weather is below freezing, detailing on the outside of vehicles is no longer possible.

### **Additional Labor / Time Allotment**

The time allotment allows us to clean your average dirty vehicle entirely. Only extremely dirty / over-sized vehicles require additional labor. We will stop the service at our maximum time allotment unless the customer requests additional labor. Time spent removing and replacing vehicle contents is counted towards the time allotment. Common examples that would require extra labor to clean the vehicle entirely and to satisfaction include: Animal/Kid cars, Smokers, Paint Oxidation, Tar/Sap/Road Paint/Overspray Removal.
